## 1960-1964 ANNUAL REPORT

U. S. DEPARTMENT OF AGRICULTURE - ASCS

## FOREWORD

Washington State agriculture is again portrayed for what it is in this Annual Report - a growing and dynamic industry that reflects the virility, resourcefulness and moral stamina of the people of this young commonwealth.

Although ranking only 24th nationally in the amount of cropland harvested, Washington State rates 11th among the fifty states in production. Our State ranks first nationally in the production of apples, hops, red summer potatoes and spearmint for oil. Among the fifty states we are second in the production of green peas, processing Bartlett pears, peppermint for oil and apricots. We hold third place in producing alfalfa seed, asparagus, winter wheat, strawberries, winter pears, prunes and sweet cherries. Washington places fourth in the production of barley, grapes and cranberries; fifth in rye and sixth in spring wheat.

In such a setting, the Washington State Agricultural Stabilization and Conservation Service completes another year of service to farmers in the State, through the efforts of dedicated people at community, county and state level.

As we approach the late 60's, there is more of a realization in our country that agriculture is a basic industry, and that agricultural income must be maintained if consumers are to continue to receive a steady flow of food at a reasonable figure. The Agricultural Stabilization and Conservation Service helps in regulating supply to demand by cash support prices for farmers at the market place, in addition to guaranteeing a high-grade supply of food and fiber at reasonable prices to the consumer. Thus, our agency plays an important part in the daily lives of all our people, and will contribute more as the years go by and our society becomes more complex.

We look forward with anticipation and optimism to the mid and late 60's.

### WASHINGTON ASC STATE COMMITTEE

All other land in farms	2,124,263	Acres	420,702		4,807		423,363		TOTAL	\$ 0	No.
Farms participating at least once in the 1960, 1961, 1962, 1963, 1964 programs		No.	22,057								

[illegible]

▲ Does not include any acreage for which assistance for these materials was given under another practice.

★ 0.005% or less.

- Number of farms exceeds number of pooling agreements.

\* All data except the amount of assistance may be duplicated in the reorganization of irrigation systems in pooling agreements.

\* The extent represents all of the acreage irrigated on farms performing the practice.

\* 0.5% or less.

Final - September 14, 1965
